**DETAILED ACTION**

***Reasons for Allowance***

Claim 1 is allowed.

This is examiner's statement of reasons for allowance.

Claim 1 is allowed for the reason that the prior art does not teach in claimed combination a scanner comprising: "...a rotatable member located in front of an incident surface of said photo-detector and positioned in a recess formed on an outer surface of a housing, said rotatable member being rotatable about a rotational axis perpendicular to a plane defined by said scanning light beam by said deflector;

an optical member that is provided on said rotatable member, said optical member allowing said scanning light beam to pass therethrough to be incident upon said incident surface of said photo-detector;

wherein a through hole through which said optical member is inserted in said housing is formed at the bottom of said recess, and said optical member is inserted into said housing through said through hole".

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
